

Cleavage Creek Cellars
CELEBRATING LIFE & WINE

WEATHER ADVISORY WAIVER – SHIPPING RELEASE

Due to extreme temperatures across the country and states where your wine shipment will travel through with UPS, we do not recommend shipping your wine(s) at this time.

*However, if you wish to waive this recommendation and request your wine to be shipped, we **REQUIRE** the form below to be filled out and signed before this can take place. Please read the waiver carefully before signing.*

I, _____, have been advised by _____, an employee of Cleavage Creek Cellars, that shipping my wine during extreme weather conditions could/can cause damage to the wine. I understand this warning and I have waived these recommendations. I understand that Cleavage Creek Cellars **will not guarantee** the condition of the wines nor replace any wines damaged by the heat, i.e. pushed up or leaking corks, bottle temperature over 85 degrees, or any other conditions that our company deems as damage due to heat.
